

↑ Increase Safety While Decreasing Cost ↓

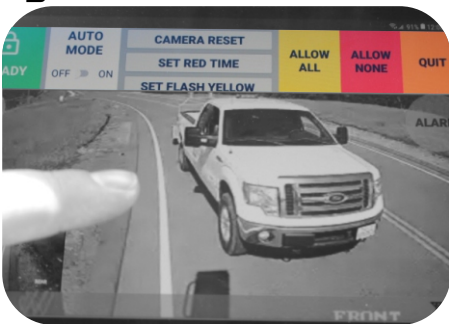

Easy Transportation

Quick and Safe Setup

Training Included

Road-Tech is now offering the Guardian SmartFlagger for rental or traffic control contracting.

The cost is \$20.00 per unit, per hour *only for the hours you use it*. The system creates a safer work environment by:

- ⚡ Decreasing worker exposure.
- ⚡ Allowing direct and clear communication between the workers and the traffic control operator.
- ⚡ Sounding an alarm automatically when an arm gate is hit.
- ⚡ Allows the operator to be in a safe shaded area to stay work zone alert.
- ⚡ Gives time to the operator to sound the alarm and react to dangerous or reckless drivers.
- ⚡ Has 6 days of recorded high quality video to decrease liability and increase compliance.
